March 31, 2021

DALLAS, March 31, 2021 (GLOBE NEWSWIRE) -- Dave & Buster's Entertainment, Inc., (NASDAQ:PLAY), ("Dave & Buster's" or "the Company"), an owner and operator of entertainment and dining venues, today announced financial results for its fourth quarter and fiscal year ended January 31, 2021.

Brian Jenkins, Dave & Buster's Chief Executive Officer, said, "Following a temporary setback due to the COVID resurgence over the holidays, our business recovery regained momentum and, coupled with our disciplined expense management, we achieved enterprise-level EBITDA profitability in January.

"During the first eight weeks of the first quarter, sales at our fully operational comp stores achieved 74% of 2019 levels with total sales of approximately \$150 million, representing our strongest performance since COVID started. We achieved our second consecutive month of positive enterprise level EBITDA in the month of February, the first full month of fiscal 2021, and expect to generate enterprise-level EBITDA profitability for the first quarter, a significant milestone in our ongoing business recovery."

Mr. Jenkins concluded, "Our accelerating recovery continues to illustrate the resilience of the Dave & Buster's brand and validates the plan we implemented to navigate through the challenges of the past year. When our revenues return to 2019 levels, we estimate the operational improvements we've implemented will drive approximately 200 basis points of incremental EBITDA margin over the rate achieved in 2019 – equating to approximately \$30 million in EBITDA improvement – excluding the impact of cost pressures that may emerge over time.

First Quarter 2021 Business Update and Outlook

The Company's business recovery has continued to accelerate during the first quarter. The recent moderation of COVID-19 cases has prompted many local jurisdictions to ease certain operating restrictions, resulting in improved results in open stores and enabling the Company to partially re-open additional stores.

Through the first eight weeks of the first quarter:

- Preliminary sales totaled approximately \$150 million
- Overall comparable store sales were -47% compared to 2019 (comparable store sales for 2021 will continue to be calculated against 2019 results to provide a more meaningful comparison vs. the COVID-affected 2020 results)
- Sales at fully operational comparable stores achieved 74% of 2019 sales levels
- In February, 85 stores, or 80% of those reopened, generated positive store-level operating income before depreciation and amortization
- During March, the Company's 11 New York stores resumed limited-capacity dine-in and arcade operations and 7 of its 16 California stores resumed limited-capacity dine-in operations, with 8 more expected to reopen by April 5.
- As of March 28, 2021, the Company had approximately \$309 million of availability under its revolving credit agreement, net of a \$150 million minimum liquidity covenant and \$10 million in letters of credit.

Based on these preliminary results, historical seasonal patterns, and barring renewed operating restrictions or store reclosures during April due to a COVID resurgence, the Company currently expects the following:

- Revenues in the range of \$210 million to \$220 million in the first quarter;
- Positive enterprise-level EBITDA in the first quarter;
- Four new store openings and the relocation of one existing location during fiscal year 2021; and
- Capital additions of approximately \$65 to \$70 million in fiscal 2021
